

Mississippi University for Women  
Department of Sciences and Mathematics

# SCIENCE ENRICHMENT PROGRAM

Presents

## Women in Engineering

including presentations and opportunities to interact with leading engineers

and

Mission

**Egg**cellence

Monday, March 15th from 8:30 a.m. to 4:30 p.m. at Parkinson Hall on MUW's campus

Open registration for female students grades 8th - 12th. Spots are limited.

This workshop is free of charge.

Learn about the various fields and careers in engineering and participate in Mission Eggcellence, where you will learn Physics concepts that are related to car crashes, vehicular design, and safety problems facing today's car manufacturers. This includes building and testing models to protect a raw egg.
