BLACK-FOOTED FERRET FUN FACTS

DENS Black-footed ferrets live in prairie dog dens in the American grasslands and prairies.

PLAYFUL Black-footed ferrets are flexible, love to wrestle and play chase. They are also excellent climbers.

NOCTURNAL Black-footed ferrets are nocturnal, which means they are most active at night. They use their strong sense of smell to locate food and friends.

ENDANGERED The black-footed ferret is one of North America's most endangered animals, meaning there are not many of them in the wild. It's a good thing they are so brave.

COMMUNICATION Black-footed ferrets are known for their squeaks, hisses and chatter. They also use dance to communicate.

BUSINESS A group of ferrets is called a business.
